The Design Process

My design process is what I would call fluid because so many things around me inspire my creativity.

I'm a true creative who is inspired by so many things but I'd have to say things that look effortlessly beautiful influence my style the most.

The one skill I wish I had is the ability to sketch the ideas I envision for my clients.

Thank goodness I have awesome communication skills and I use them to really capture the essence of the beauty you want to bring to life through decor and floral.

Making my clients feel comfortable with the investment they're making is important to me. Here's what some of our past clients shared about their experience with me.

What Couples Are Saying

Sydnee Event Productions made our ceremony a memorable one. We wanted a fresh and simple look and Shaunette and her team exceeded our expectations. They were able to use the decor to tie everything together and the bouquets for our bridal party were perfect accents to the all-white color scheme we selected. We would recommend Sydnee Event Productions to anyone who is looking to take their event to the next level. Their high levels of communication, attention to detail, and overall professionalism put you at ease in the planning process and allow you to enjoy your dreams come to life on the event day.

I can not even begin to thank Shaunette with Sydnee Events and her team enough for all of their hard work and support with my wedding!!! My mother and I initially consulted with her about the floral arrangements, that is until we saw her designs! She does it ALL!!! Everything turned out so beautiful and we couldn't have asked for a more professional planner and designer! She knows her stuff!!! Thank you for making my wedding undoubtedly the most beautiful day of my life!
